DETAILED ACTION

Allowable Subject Matter

Claims 1 – 20 are allowed.

The following is an examiner's statement of reasons for allowance:

With respect to claim 1 and 20, the prior art does not teach or render obvious the total combination as claimed including an image forming unit comprising a controller that controls a rotation of a register roller such that a leading edge of the recording medium is stopped at the register roller when an image has not been formed on the first face and such that the leading edge of the recording medium is not stopped at the register roller when the recording medium with the image formed on the first face is fed by the feed unit to the register roller.

With respect to claim 11, the prior art does not teach or render obvious the total combination as claimed including an image forming unit comprising a controller that controls a rotation of the register roller such that a leading edge of the recording medium is stopped at the register roller when the recording medium is fed from the second feed unit to the register roller and such that the leading edge of the recording medium is not stopped at the register roller when the recording medium is fed from the first feed unit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
